

New Pocket Dictionary Breaks Down the Complexities of the Reformed Tradition

Combining strong expertise on the Reformation and succinct styling, the latest in The IVP Pocket Reference Series, the *Pocket Dictionary of the Reformed Tradition*, provides a handy compass to help scholars, ministers and lay persons navigate the richness of the Reformation and the theology therein.

This small book covers a breadth of topics: Latin terms, theologians from Calvin to Torrance, confessions from the Belgic to Westminster, a variety of doctrines, apologists from Francis Schaeffer to Cornelius Van Til, and several hundred more entries. The wide scope is important for understanding how varied Reformed theology can be, and this text puts everything in front of the reader in a brief, concise format.

Pocket Dictionary of the Reformed Tradition
(The IVP Pocket Reference Series)
Available June 2013
\$8, 128 pages, paperback
978-0-8308-2708-4

“Few theological traditions are as complex, rich and varied as the Reformed tradition. This is a rewarding heritage that has sustained and fostered the faith of many Christians through the centuries and around the globe. Yet it is easily misunderstood and misrepresented, both by those who are insiders and outsiders. . . . What we have attempted to do in this very small dictionary is to provide a basic reference tool for folks who want to know a little about the people, movements and terms that are so important to the Reformed tradition. . . . We hope to get you started in your appreciation of the tradition, and to help remove the disorientation that so easily comes when entering a new conversation.”

—From the preface
